

2025 University Entry Schemes and Pathways

Version 1: updated April 8 2024

Australian Universities

The Australian universities location map shows university campuses across major Australian locations. Most universities have more than one campus and are located across multiple states and territories, providing you with a choice of where to study. For the purposes of this resource, where there are institutions with interstate campuses, you'll find its related information under the state of the home/original campus. Please refer to university websites to further explore course and campus options.

DISCLAIMER

This resource contains details for a selection of institutions registered with Universities Australia; the peak body of the higher education sector in Australia.

At any point, universities may make changes to schemes or dates. Many institutions have course-specific entry requirements or prerequisites as conditions, so be sure to check individual websites. Please check citizenship eligibility as this varies between schemes.

This is not an exhaustive list of entry schemes and alternate pathways. Refer to institution website for further details.
